UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT

**FIELD NOTES**

OF THE

DEPENDENT RESURVEY OF

A PORTION OF THE

TWELFTH AUXILIARY GUIDE MERIDIAN WEST,

THROUGH TOWNSHIP 33 NORTH, BETWEEN RANGES 100 AND 101 WEST,

AND A PORTION OF THE SUBDIVISIONAL LINES,

AND THE SUBDIVISION OF CERTAIN SECTIONS,

TOWNSHIP 33 NORTH, RANGE 100 WEST,

OF THE SIXTH PRINCIPAL MERIDIAN,

IN THE STATE OF WYOMING.

**EXECUTED BY**

LYNN A. FORBES

CADASTRAL SURVEYOR

Under Special Instructions dated JANUARY 14, 1999, approved JANUARY 19, 1999, which provided for the surveys included under Group Number 660, and assignment instructions dated JANUARY 14, 1999.

Survey commenced MARCH 22, 1999

Survey completed JUNE 21, 1999

## T. 33 N., R. 100 W., Sixth Principal Meridian, Wyoming

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the Twelfth Auxiliary Guide Meridian West, through Township 33 North, between Ranges 100 and 101 West, and a portion of the subdivisional lines, and the subdivision of certain sections, Township 33 North, Range 100 West, Sixth Principal Meridian, Wyoming.

The history of surveys pertaining to this resurvey is as follows:

William B. Yerby surveyed the exterior boundaries and the subdivisional lines in 1877. Burleigh E. Bramel retraced the west boundary in 1896, establishing the Twelfth Auxiliary Guide Meridian West.

Numerous local surveys have been conducted in the area and the acceptance of such surveys is detailed herein.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 660, Wyoming, dated January 14, 1999.

Preliminary to the resurvey, the lines of the previous surveys were retraced and diligent search was made for all corners and other calls of the field note record. Identified corners were remonumented in their original positions; lost corners were reestablished and monumented at proportionate positions based on the latest official record, but only after exhausting every possibility of finding direct evidence of such corners. The retracement data was thoroughly verified and only true line field notes are given herein, which refer to the completed survey.

The survey was executed with a Global Positioning System (GPS) TRIMBLE Model 4000 receiver. The instruments were maintained in proper adjustment at all times. The direction of all lines refer to the true meridian. All distances and the geographic position were determined by Global Positioning System methods.

The geographic position of the 1/4 sec. cor. of secs. 23 and 26, based on NAD 83 (1993) and determined by Global positioning methods, is:

Latitude 42° 48' 35.14" N., Longitude 108° 46' 25.98" W.

The magnetic declination is 13° E.

Dependent Resurvey of a Portion of the  
Twelfth Auxiliary Guide Meridian West,  
Through Township 33 North, Between Ranges 100 and 101 West,  
Sixth Principal Meridian, Wyoming

CHAINS	
	(Restoring the survey executed by Burleigh E. Bramel in 1896)
	Beginning at the $\frac{1}{4}$ cor. of sec. 18 only, on the W. bdy. of the Tp., remonumented by Chris D. Hamilton, Wyoming Registered Land Surveyor No. 5297, with an iron post, 1 in. diam., firmly set, projecting 6 ins. above the ground, with a sandstone, 12x10x6 ins., loosely set, projecting 8 ins. above the ground alongside, plainly mkd. $\frac{1}{4}$ on W. face, in a collar of stone, with undated brass cap mkd.
	T33N R100W $\frac{1}{4}$   Sec 18 PLS 5297
	This position is accepted as a careful and faithful perpetuation of the original cor. position.
	N. $1^{\circ} 21'$ W., on the W. bdy. of sec. 18.
	Over rolling terrain.
26.00	Enter hay meadow.
39.13	Point for the cor. of secs. 7 and 18 only, at proportionate distance; there is no remaining evidence of the original cor.
	Set an iron post, 28 ins. long, $2\frac{1}{2}$ ins. diam., 24 ins. below the surface of the ground, with brass cap mkd.
	T33N R101W R100W S 13   S 7   S 18 1999
	Cor. is located in hay meadow.
	N. $0^{\circ} 30'$ W., beginning new measurement.
	Over rolling terrain.
3.50	Dirt road, bears E. and W.
10.00	Ascend steep S. slope.

Dependent Resurvey of a Portion of the  
Twelfth Auxiliary Guide Meridian West,  
Through Township 33 North, Between Ranges 100 and 101 West,  
Sixth Principal Meridian, Wyoming

CHAINS	
19.68	<p>Point for the S. 1/16 sec. cor. of sec. 7 only.</p> <p>Set an iron post, 28 ins. long, 2½ ins. diam., 6 ins. in the ground to bedrock, supported by a mound of stone, 3 ft. base to top, with brass cap mkd.</p> <div style="text-align: center;"> <p>T33N R101W R100W   S 1/16   S 7 1999</p> </div> <p>Cor. is located on steep S. slope.</p>
21.00	Top of ascent, thence over rolling terrain.
39.36	<p>Point for the ¼ sec. cor. of sec. 7 only, at proportionate distance by the method of irregular boundary adjustment; there is no remaining evidence of the original cor.</p> <p>Set an iron post, 28 ins. long, 2½ ins. diam., 6 ins. in the ground to bedrock, supported by a mound of stone, 4 ft. base to top, with brass cap mkd.</p> <div style="text-align: center;"> <p>T33N R101W R100W   1/4   S 7 1999</p> </div> <p>Set a steel fence post alongside the iron post.</p> <hr/> <p>N. 0° 31' W., beginning new measurement.</p> <p>Over rolling terrain.</p>
39.31	<p>The cor. of secs. 6 and 7 only, remonumented by Floyd A. Bishop, Wyoming Professional Engineer and Land Surveyor No. 303, with an iron post, 1 in. diam., firmly set, projecting 10 ins. above the ground, with a broken red sandstone, 9x5x2 ins., lying loose, plainly mkd. 5 grooves on an edge, no other mks visible, with a steel fence post alongside, with undated brass cap mkd.</p> <div style="text-align: center;"> <p>T33N   S 6 R101W — R100W   S 7 PELS 303</p> </div>
